- This document
- Installation file - “Anybus_LWTTool_Setup v.1.0.7 Build 40.exe”

Changelog version 1.06 to version 1.07

- 1) SNVT/SCPT lists updated to latest version.
- 2) Serial port support updated to support Microsoft Vista in LWDownload tool
- 3) Better detection of available serial ports LWDownload tool added.
- 4) Some error-messages changed to give more valuable information about possible problems
- 5) XIF-import function is now disabled by default to avoid confusions about its use
- 6) Possibility to set program ID in LonMark mode is now disabled by default to avoid confusions about its use

Supported hardware:

Anybus X-gateway.

How to upgrade from previous versions:

Run the installer.

Known limitations:

- The LWTTool installer launches the FWDDownloadTP installer as part of the install process.
- Does not install Transport Provider as part of the installation process. Transport Provider has to be installed separately.
