▪1x LPT bidirectional
▪supports EPP / ECP and 1284 mode
▪PCI Plug and Play
▪Drivers for Windows 95 to 7/2008 R2
▪Software compatibel with DOS, Windows 3.11, OS/2, Linux and div. Unix

VScom 011H UPCI Low Profile

Quick Link: | **Features** | **Overview** | **Hardware Specifications** | **Operating Systems** | **Ordering Information** |

■ Overview

The Low Profile card fits to the PCI Low-Profile specifications. As such it is usable in small cases. The parallel port allows EPP/ECP data transfer. It is best to connect high-speed printers and some other devices, such as ZIP-drives.
