Overview

The NetUSB-400i controls four USB 2.0 devices via Ethernet. The four USB ports on NetUSB-400i are seen as installed in the Windows PC. Any devices connected to the ports are detected via Plug&Play. Several PC may use the same devices on a time-sharing base.
USB printers offer an automatic sharing option, to connect them when data is printed. Other PC use the same printer as soon as the previous job has finished printing.
The metal case and the flexible power supply make the NetUSB-400i a good choice in rough office and industrial environments.

Application

- Print server
- Automatic warehouse control system
- Retail system
- Remote surveillance
- Building automation system
- Other remote USB devices control

Hardware

Processor	ARM 9 170 Mhz
Memory	32MB SDRAM, 8 MB Flash
Connector type	USB type A Port RJ45 for Ethernet

>Back to top

Interface

Ethernet interface	Auto-detecting 10BaseT/100BaseTx
Protocols	TCP/IP, UDP, DHCP, ICMP, HTTP, DNS
USB interface	USB 2.0 High Speed
No. of port	4
Available Modes	Bulk transfer Isochronous transfer

>Back to top

Performance

Speed	Up to 480Mbps
IRQ	None
I/O address	None

>Back to top

Power and Environment

Power requirements	9 - 30V DC, 1.2A @ 12V
Dimension	127×92×27 mm³ (W×L×H)
Operating Temp	0°C - 55°C
Storage Temp	-20°C - 85°C
Case	SECC sheet metal (1mm)
Weight	300 g

■ Special Features

Installation	Administration utility automatically finds USB servers in the network
Configuration	Configuration over Driver Panels, WEB Browser
DNS	Domain Name Server support
Firmware	Firmware update over Administration Software and WEB Browser
LEDs	LEDs for Power, Ready, Ethernet Link/Speed, USB usage

■ Ordering Information

Art.No	413
Product Name	NetUSB-400i
Packing list	NetUSB-400i Power adapter CD-ROM with Driver and Configuration Software

■ Optional Accessories

DK 35A	DIN-Rail mountig kit

■ Full size product image
