

First Steps PLC-ANALYZER pro 6

①

Download the current installation file PLC-ANALYZER pro 6

Download your personal installation file from <https://www.autem.de/get-plcapro6>. To do this, you will need the "download-activation code" printed on your Software License Certificate ("SLC").

②

Installation PLC-ANALYZER pro 6

Start the downloaded installation file and follow the instructions.

③

Transfer licenses

At the end of the installation, the "AUTEM LicenseManager" is starting automatically. (You can also find it in the Windows Start menu in the program group "AUTEM PLC-ANALYZER pro 6")

You now need your licenses, which are usually contained on the supplied "USB-LicenseKey Dongle".

Plug the "USB-LicenseKey Dongle" into a free USB port on your computer.

The "AUTEM LicenseManager" now shows you on the left side all licenses available on the "USB-LicenseKey Dongle". The column "free" shows the number of licenses available for transfer.

Transfer the desired licenses to your computer now.

Then close the "AUTEM LicenseManager".

④

Start PLC-ANALYZER pro 6

Now start PLC-ANALYZER pro 6 by double-clicking on the icon on the desktop. (You can also find it in the Windows Start menu in the program group "AUTEM PLC-ANALYZER pro 6")

Working with PLC-ANALYZER pro 6 is very intuitive. The program supports you with hints and an extensive online help (F1). You'll find the manual PLC-ANALYZER pro 6 under https://www.autem.de/download_e

⑤
