

BX-100F

The **BX-100F** is an extremely compact and completely fanless box computer, which may be connected to an external LCD monitor, keyboard and mouse.

Thanks to a mechanical kit, the BX-100F can be fixed on a DIN rail. Up to 4 USB (2.0) ports and 1 Ethernet 10/100 Mbit allow the connection of a vast range of devices. Three RS232 serial ports are also available.

For embedded applications the BX-100F can be equipped with an optional Compact Flash and the support for operating systems such as Windows XPE.
