BX-400F

The **BX-400F** is an extremely compact and completely fanless box computer, which may be connected to an external LCD monitor, keyboard and mouse.
Thanks to a mechanical kit, the BX-400F can be fixed on a DIN rail. 4 USB (2.0) interfaces and 2 Ethernet 10/100Mb ports allow the connection of a vast range of devices.
There can be either 3 RS232 serial ports or 4 if the parallel port is not required.
For embedded applications the BX-400F can be equipped with an optional Compact Flash and the support for operating systems such as Windows XPE.
