

All the **OFXX** family of monitors have high brightness TFT displays, wide viewing angle and long life rear lamps (50.000 hours at 25° C), they are extremely compact and come in a wide range of sizes. They can be connected with an external computer, as our Box Computers with a VGA standard cable. The touch screen version provides both RS-232 and USB interfaces. This family is particularly indicated for rear panel mounting solutions.
