

## Memory Cards

Memory card, short type

Memory cards from the Systeme Helmholz GmbH, suitable for the S7, are designed for use in CPU modules CPU 313 to CPU 318-2.

We have been able to achieve top quality standards and a very advantageous price/performance ratio with the use of modern, manufacturing methods.

Our product program covers the range of the most common submodules.

| Ordering Data            |               |
