

PROFINET IP 20 Connector (180°) (Ref 40310)

Introduction

Compact connector for 100 Mbps PROFINET connectivity in IP 20 environments.

The eight pin connection can be refitted, is tension and vibration resistant. The connecting block can accommodate shielded cable up to 8 mm diameter.

The FastConnect system saves time during assembly.

This connector can also be used for other Ethernet networks.

Product features

General

- Connector type: 180° RJ45 plug
- Terminals: 8-wire + Shield for Industrial Ethernet solid and flexible conductors
- Suitable for AWG 22 - 27
- Baudrate: 100 Mbps - Cat 5e
- Cable length: Max. 100 m
- Isolation class: IP 20
